

# Financial projections

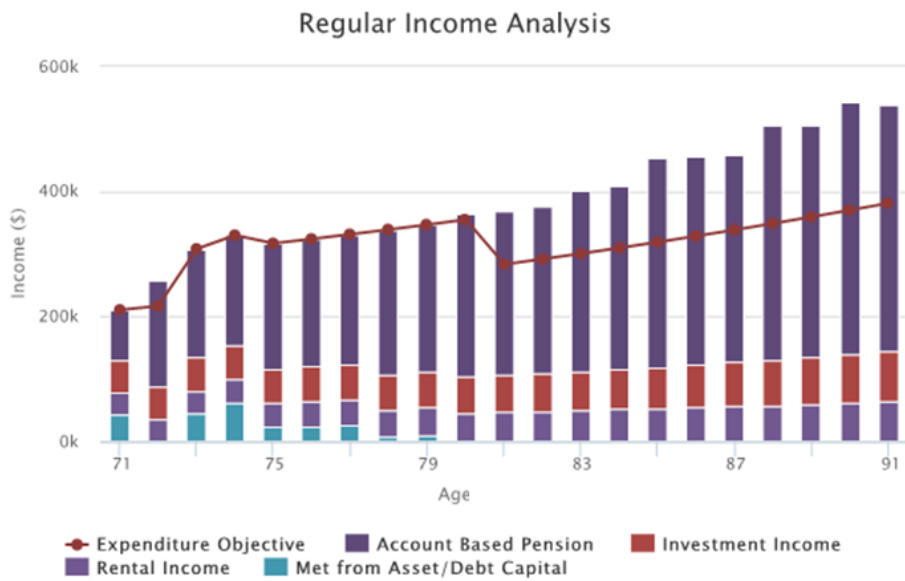

Below is a sample of modelling which forms an essential part of our service. This modelling is based on a client's current circumstances, goals and objectives, and strategy.

The financial projections show how a client is progressing towards their unique goals.

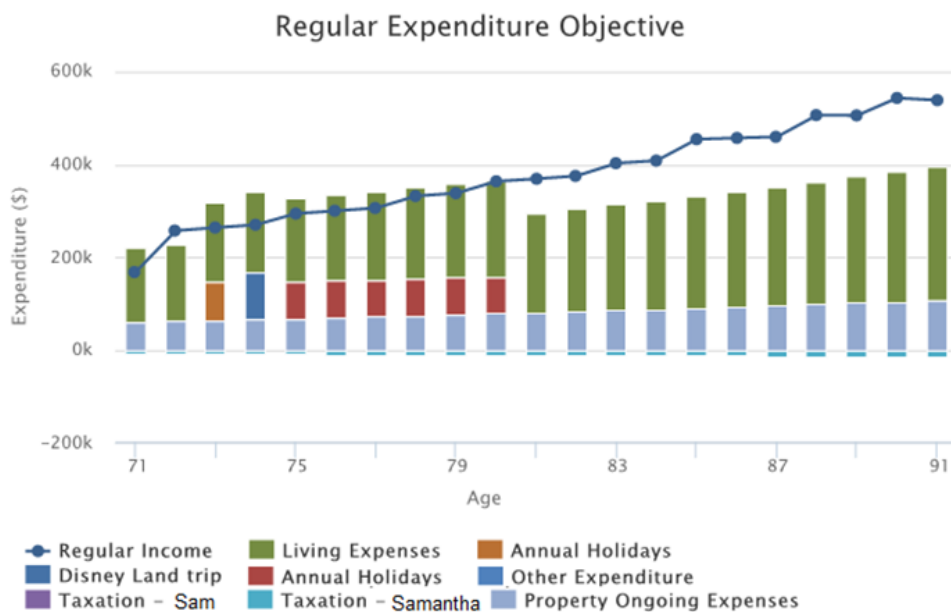

The modelling is updated on a triannual basis, subject to service level.

## Long term projections

### Income analysis

### Expenditure analysis

## Sample Report

This document contains purely factual information and/or general advice and does not take into account your objectives, financial situation or needs and, before acting on this information, you should consider whether it is appropriate to your situation. This document should not be considered as financial advice, as each individual's circumstances vary and also market variables and compliance requirements can rapidly change. Please always seek the written advice of an accredited financial advisor. Jensen Financial Planning does not give, nor does it purport to give, any taxation advice. The application of taxation laws to each investor depends on that investor's individual circumstances. Accordingly, investors should seek independent professional advice on taxation implications before making any investment decisions. The information contained in this document has been prepared based on information believed to be accurate at the time of production however the price of securities does fluctuate and we recommend that you consult your adviser for more up to date information before making an investment decision.
